### Assurance Intern

### Ernst and Young

Prepared tie-outs from the General Ledger and Subledger to supporting client documentation and EY documentation using analytical skills and attention to detail. Improved my time management skills and efficiency by completing my assigned tasks within the expected time given to the task using advanced Excel functions and keyboard shortcuts, as well as asking questions for clarity on each task.

### Accounting Tutor

### Texas State University

Helped the student become an autonomous learner by providing examples related to their questions and working them out step-by-step while advising the student to take notes. Learned perseverance through trial and error by trying different teaching approaches for the visual, auditory, and kinesthetic learner.
